Subject: Fwd: Projections Sale & Lease Scenario

Asalamo Alaikom,

We will close on a new project for RESS in two weeks. The project is 1.5 acres with a building on it. It is in Houston, will cost us about \$380k.

First, We will sell half an acre separately. Then, The building on one acre lot will be listed for both leasing and selling at the same time. We will go either way, if good leasing (~4K/month), we will go for it. If good selling price (above 50% profits) will go for selling ISA.

There will be few small and big projects on the way ISA.

Regards

Mahmoud
